EXPERIENTIAL SCIENCE-THEMED CHINESE CAMP (5-6 yr olds)

Transform your child's Chinese via experiential learning

We are **highly recommended** by **20 prominent bloggers** and was voted the **"Enrichment class that best nurtures your child's interest in Chinese"** by Young Parents Magazine.

Contact us now to
help your kids **excel in Chinese!**

"Kyle went through the 4 days camp without a single complain! He is now speaking SENTENCES in Mandarin which he couldn't before. He is not afraid to speak Mandarin now and will even attempt to reply or initiate conversations with us in Mandarin!" – Ting

"Noey was obviously having a good time AND speaking Chinese. I couldn't ask for more than that! Noey was very enthusiastic about attending class. The camp focuses on oral skills and the variety of activities were fun for the kids and captured their interest. Noey's teacher was lovely, warm and showed a lot of patience." – Vera (Mummy blogger - Life is in the Small Things)

Kovan

(near McDonalds)

Having trouble getting your kids to speak more Chinese?

Join our super popular holiday camp now to build your kids' oral confidence and kindle their passion for Chinese.

SCIENCE-THEMED CAMP – DEC 2020

In our science-themed camp, your child will expand on their written and oral vocabulary while satisfying their curiosity by:

- Building a battery-powered fan and toy car that they can bring back
- Participate in fun team-based games
- Listen to engaging stories.

FREE 3-MTHS SUBSCRIPTION (WORTH \$60!)

Your child's learning doesn't stop when the camp ends!

With our **AI-powered vocabulary learning system**, your child can leverage on the knowledge gained from the camp to further build a strong vocabulary foundation.

KIDSTARTNOW'S CAMP PHILOSOPHY

- Kids normally associate Chinese with rote-learning and being boring. Rather than forcing kids through boring classes, we prefer to make the language come alive.
- Over here at KidStartNow, we believe in letting kids naturally discover the joy of using the language on their own.
- This is why we focus on creating an organic learning environment for our students to learn through experiential, hands-on handicrafts and activities.
